

The background of the entire page is a composite image of renewable energy infrastructure. On the left, a large metal lattice tower for high-voltage power lines rises against a sky with soft, orange-tinted clouds. To the right, two wind turbines are visible, their blades partially obscured by the sky. In the foreground, a field of solar panels stretches across the bottom, with a patch of green grass visible in the lower right corner. A large, semi-transparent orange circle is positioned in the lower-left quadrant, serving as a backdrop for the company's tagline.

ORCOPOM

ABOUT US

Orcopom Group was founded in 1985 as a textile export company, which is responsible for the **production of garments (fashion apparel and uniforms)** for *private label* and mainly to the **high standards** demand in the Scandinavian market.

With the aim of expanding our range of products and meeting the current market requirements, we are associated with some of the largest European producers of Workwear and Protective Equipment.

This makes us a **multibrand distribution company** and our large experience enables us to help our customers to protect their workers even at the most risky job, with the highest quality products.

Quality, Protection and Comfort are our core values.
